

WINTER GAMES IN POLAND

Dear Friends and Supporters of SU Poland.

One project after another, the end of one year, a new year...

Winter time was hectic and full of challenges. However, it was not just busyness; we had occasions to share God's Word and His love through "Kids Games" and "Joyful Christmas" events.

There are pictures in the gallery on the SU Poland website: www.scriptureunion.org.pl or www.dzielradosc.pl.

November was a time of training and equipping. International Kids Games training and the Global Leadership Summit in Poland. An investment in order to serve better and train new leaders.

December 13 saw the third edition of "Joyful Christmas" for 200 kids from social care. We were given time at this event to share God's love with these children.

Just after this we organised Kids Games training for youth in Grudziadz, a city in the north west of Poland. There were ten young people from two cities and group of us from Warsaw. It was a great time of Team building and learning from one another. The initiative came from young person who had been with me at the Kids Games training in Rimlishof.

In January we did Kids Games there in Grudziadz which lasted for one week, for kids who had not gone on away and were at home during the winter holidays.

We started the week with 8 kids and we finished with 50. It was not easy, we had to go on the streets and personally invite kids to come. The sport hall was only organised at the last moment. The program included such topics as : You are special; We are the team; Play fair; Listen to the coach. There were Bible stories and games to support the program. It was a special time, due to the volunteers with a servant heart. We do follow up on 20th March. They asked us to come back and organize Kids Games again.

Jan/Feb. Just after this, the group "More than sport", which the SU is part of, started a 2 week program in Warsaw. "Olympics 2010" was organised as part of the local authorities' "Winter in the City" program during school winter break. There were more than 30 volunteers and 160 kids who came daily for 3-4 hours. During the opening and closing ceremonies of Kids Games we sang the Kids Games song in Polish. It was so good, that we had official visitors from Warsaw city hall, the department of sport and the Mayor of the district. They liked it, the kids liked it and the teachers and parents commented that kids are somehow different.:-) Glory to God.

We are very thankful God for His hand upon us.

Thank you for your help, prayers and financial support.

The Spring season plans are before us. In two weeks we start Kids Games in Grudziadz, later training for youth. In May we will have a second edition of Ecoalfa club. After this Kids Games training for big summer event in Lodz. The Joy we share, we receive back from kids. We do struggle financially and we do not know, what the next week will bring. We trust God, that He will guide and provide us what we need.

On behalf of the kids, with whom we Share the Joy.

Thank you!

Krzysztof Chmielarczyk
