

# SPRING GAMES 2010

Dear Friends of Scripture Union Poland

Today is one of the last calendar days of Spring.

Just after Winter activities we had a little time to charge batteries, feedback and planning new steps. Not knowing why the spring came one month later. Too much snow and for too long....

Together with voluntaries and our partners in ministry we started our activity.

20 of March after preparation we open the rainbow Kids Games program in Grudziadz. The group of 30 kids appeared, most of them not the first time.:-) They came with youth. In next days we had more and more kids. Fantastic time, full of fun and games but not only. Kids had to gain color missions as a steps of learning the Good News.

One of the local church invite our Indian Village for one event, where families, which adopted the kids came together to celebrate this. This was at the field of state orphanage in Debinki, near Wyszow (about 40km from Warsaw). All age kids and youth liked our games. Our work was highly appreciated by local authority, so they invite our partner the local church for making an activities with youth, the orphans. We have been invited for the next year as well.

The next spring activity was a Indian Kids Games program for one of the primary school in Warsaw. School Samuel. This was 3 weeks ago, but Kids keep talking about this till now.:-)

This spring we had not only happy times. The crash of our President airplane and two weeks of flood. We talk about it, trusting God, that He will give us love and peace and we will be the good testimony and support for others.

Spring is the last moment of preparation for summer activities.

This year we start end of June the vacation season. This will be the biggest Indian Village in Zaborze, where SU is a partner of it. Planned for 300 kids.

From the beginning of Mai we work intensively on preparation of Teen Games camp in Bulgaria.

This is international SU camp for youth. We decided to take most of our voluntaries, who helped us during Kids Games in last years. Kids Games we plan in Warsaw and Grudziadz.

Last year we have been with Real Hope Foundation and local church in Sandomierz, this year we plan to be in Lodz, where we do the Kids Games program. As this is big city we plan to work with more than one local partner. The only challenge is to do the training for voluntaries before.

We are faithful to God for this special time.

Thank you for Your help, support and we ask for more.

This year the needs are special. We have shortage of finances to pay for the transport of youth to the camp in Bulgaria. Some young people's could not go for this camp, due to the financial difficulties at home. We want them to go, because they help us as voluntaries at Kids Games. This camp will be a training.

Not easy situation is also due to my personal situation. So far, we could help SU and support together with my wife. Now when we live from one salary, supporting events or youth is not possible. This not an easy situation, which influence my work.

However, I believe, that this will change and we will be able to support the activities of foundation.

I know, that Kids already are looking for Kids Games and Indian Village, so a lot of work. I hope that we will have enough of voluntaries and funds.

On behalf of Kids, to whom we share the Joy.

Thank you.
